Different Departments. The President to-day submitted a message to the House containing the revised estimates of the different departments for the next fiscal year. The reductions generally from the original estimates are very light. Both the Secretary of the Navy and General Sherman oppose a decrease in their respective forces, and Mr. Robeson tells the President that although he will do his best to conform to a reduced appropriation if Congress country's interests would be to increase it and provide for the perfect efficiency of the PEPSINA PORCI,

Morton gave notice that when the salary bill should be disposed of he would ask the Senate to take up and dispose of the Louisiana Mr. Stevenson gave notice that when the

Louisiana case was taken up he would move to refer the whole matter back to the Committee on Privileges and Elections with authority to take proof as to the validity of Mr. Sumner presented a petition of thirty five citizens of Ohio against the proposed

theological amendment to the Constitution. A tedious debate over the salary bill exhausted the day. There was no Executive session. House .- Mr. Butler moved to recommi he supplementary civil-rights bill. His apology to the House was that he wished to

brune it of absurd amendments, over which

he House could vote two or three days.

He continued his speech, which mainly con-

sisted of a resume of his exploits during the The bill was then recommitted. A resolution was adopted calling for the names of the paymasters in the late war

whose accounts are unsettled. Mr. Crutchfield, of Tennessee, asked leave to offer an amendment to the supplementary civil-rights bill providing a penalty against any woman who refuses an offer of marriage on account of race, color, or previous condition of servitude. [Laughter.] For the Gulf States, partly cloudy or clear Mr. Butler, of Massachusetts, objected. In

the course of his speech Butler said if he might be allowed to speak for the Republican party he would embody the doctrine in a sentence not that all men were equal, but that every man had a right to be the equal of every other man if he could. All constitutions, all laws, all enactments, all prejudices. all caste, all customs, all thought against that, in contravention of that, were unjust, wicked, unchristian, and certainly must be brought to nought. This bill only removed all impediments to every man to be the equal of every other man if God had given him the power to be the equal.

Mr. Monroe, of Obio, from the Committee on Education and Labor, reported back adversely the resolution offered yesterday by Mr. Sypher, of Louisiana, directing army rations to be used for the relief of the starying poor in the southern States. He said committee had talked over the matter fully and freely, and the result arrived at was that the committee did not regard it as the proper sphere of Congress to enter into a general system of providing for pauperism in the States. If this precedent were established, it would soon be found that Congress had entered on the whole business of taking charge of pauperism generally throughout the States. The report was adopted, and the committee was discharged from the

further consideration of the subject. Proposed Settlement of Georgia Dis-

tillery Cases. Washington, January 7 .- District Attorney Farrow, of Georgia, with the endorsement of all the representative men from that State cognizant of the facts, has secured the acceptance by the Commissioner of Internal Revenue of the proposition of ex-Representa-

tive Price in the matter of illicit distilleries in North Georgia. The proposition involves a liberal settlement approximating to general amnesty for past irregularities, and looks to the pardon of those in prison. The latter class, however, must depend upon Executive elemency. There are about 35 in jail, and over 300 cases unadjusted. There are also about 300 distillers, against whom no proceedings have been instituted, who desire to avail themselves of the settlement proposed.

Various Items. WASHINGTON, January 7.—The McEnery Legislature, through a committee, have telegraphed the presiding officers of the Senate and House at great length. The communication is in the form of a petition for relief and recognition. The dispatch is signed by Messrs. Booth, Worral, Lobdell, Foster, and Zacharie. It may be stated with absolute certainty

MEDICINALLY PURE COULTIVER OIL,

"the best, purest, and most acceptable to the
stomach." This cod-liver oil we import direct, and
claim that it is superior to any other sold in this
market, because it is selected by our own agent at
the fisheries and made only from healthy and fresh
silvers. It has never been filtered or expressed, and
thus deprived of its most valuable therapeatic properties, nor exposed to atmospheric changes, which
render other oils rancid and unpalatable. It has
never been mixed or adulterated with inferior and
cheaper oils to reduce the cost at a sacrifice of
its quality, nor bandled by any other parties than
the fishermen and oursetres. We have the testimony of physicians who prescribe it, and of patients who have taken it, that it is more acceptable
to the stomach and more casely assimilated than
any other oil. We guarantee it to be entirely pure
and fresh, free from rancidity, and fully possessing
all of the wonderful remedial properties claimed
for the best cod-liver oil.

Among the perfecting features to be considered in committee will probably be the depriving it of the provision that there shall be no discrimination in the public schools. This feature of the bill is a terrible pill for white Republicans to swallow, excepting in those districts where there are few or no negroes;
